Projects

E-commerce Website

Jan 2025 – Feb 2025

- Developed a responsive e-commerce platform using HTML, CSS, and JavaScript, featuring a modern user interface with product catalog, shopping cart, and social media integration
- Implemented key functionalities including real-time product filtering, user authentication system, and interactive product showcase with dynamic pricing and rating components

Ferrari Customization Platform (Next.js/Three.js)

Mar 2025 – May 2025

- Developed a full-stack Next.js/Three.js Ferrari customization platform featuring real-time 3D visualization, persistent state management, and comprehensive dealership integration
- Highlights include dynamic rendering of car models, interactive UI, and backend integration for data persistence
